## Reprints and Enlargements - Digital Files

4 BUSINESS DAYS up to 12x18  
 5 BUSINESS DAYS larger than 12x18

We were one of the first retailers in Canada printing digital files to Kodak Endura photographic paper. Digital files can be submitted in a few ways - online, mobile phone and through in-store Kiosks. Visit [www.donsphoto.ca](http://www.donsphoto.ca) for more details. Professional users can submit files through our fully color managed ROES application and are encouraged to contact [pro@donsphoto.ca](mailto:pro@donsphoto.ca).

## Drymounting and Laminating

**4 ADDITIONAL DAYS (NOT INCLUDING PRINT)**

Foam-cor®: 3/16" thick lightweight board. Ideal for custom framing or short term mounting on its own. Available in black or white.

Gatorfoam®: 3/16" thick heavy-duty foam board. A more robust option which is less likely to bend or warp due to changes in humidity. Available in black or white.

3mm Sintra: Expanded rigid PVC board, very versatile substrate that unlike Foam-Cor or Gatorfoam can be curved or bent slightly.

### Laminating:

Perfect for ink jet poster prints, photographic and plain paper media. They can be dusted or wiped with a damp cloth. We recommend printing on matte paper for anything you wish to have laminated. **Standard Laminate:** Lustre - Also available in Matte

## Ready to Hang - Fine Art Canvas

**10 BUSINESS DAYS**

Using the latest inkjet technology we create stunning finished prints from your favorite images. Have your image wrap around the edge of the canvas, or finished with a white or black edge. All prints come ready to hang in the size you want. If there is a size you would like and you don't see it listed please ask.

We now offer a step-up to our inkjet Canvas offering with **Pro Satin PLUS** Canvas prints. First we start with heavyweight Breathing Color Crystalline Satin canvas and stretch on the Professional 1.75" frame. We then staple the material to the back and complete it with finish tape. The result is a stunning canvas print with a higher gloss, greater d-max and beautiful presentation.

## Ready to Hang - Canvas - Traditional - Metallic

**16 BUSINESS DAYS**

The canvas wrap process begins with your image produced on vibrant Kodak Metallic photographic paper. The print is adhered to the canvas and laminated with Matte laminate, stretched on a frame and then is ready to hang. Have your image wrap around the entire edge of the canvas (FIW - Full Image Wrap) or only showing on the face of the canvas frame and finished with a white or black edge (SBW - Side Border Wrap).

## Ready to Hang - Metal Prints

9 BUSINESS DAYS

Create unique prints on Chromaluxe® aluminum panels with a high gloss finish and a luminous quality. Metal printing is just that – printing on metal. We use a special high heat sublimation process resulting in images that have an amazing depth. These prints have a similar lifespan to traditional photographic prints. The Vibrant Glossy Metal prints have a white backing resulting in a traditional look, while the Brushed Metal Glossy print allows the brushed metal to show through on lighter areas of the image. All prints come ready to hang with smaller sizes having the option to come with an easel stand in place of a wall hanger.

PRINT SIZE	SURFACE OPTIONS*	MOUNTING OPTION	PRICE
4x6 Metal Print	VG	Aluminum Stand	\$18.49

\* Surface options VB = Vibrant Gloss, BG = Brushed Gloss and VM = Vibrant Matte

## Ready to Hang - Plaque, Floatmount and Acrylic Prints

**10 BUSINESS DAYS**

**Plaquemounts** are mounted on 3/8 inch thick MDF (wood) base with a beveled and hand painted black edge. Prints come with a UV laminate and a pre-cut slot on the back ready for hanging.

**Floatmounts** are mounted on 1/8 inch tempered Masonite and have a recessed back that makes the print appear to 'float' away from the wall. Prints are laminated with a UV laminate. Floatmounts are much lighter than Plaquemounts, and are therefore a great choice for mounting large prints.

**Acrylic Prints** Metallic prints are face-mounted on a clear Acrylic and then finished as a Floatmount, Plaquemount or Flushmount option. This method provides brilliance, depth, and an intensity unattainable by standard framing. Choose three options with 1/8 Acrylic and one option with 1/4 inch material.

*Prices includes photographic print and laminate. All print surfaces are available. Prints must be laminated with one of your choice: matte, glossy, leather or canvas with matte the default*

16x24	\$38.55
20x24	\$42.49
20x30	\$49.36
24x36	\$76.86
30x40	\$100.92

Custom cropping available \$3.00 per image

\$2.00 handling fee per image for cut 35mm and ALL 110, 126, 127, 620, and other odd sized transparencies for prints 12x18 and smaller.

## Photo Calendars

**6 BUSINESS DAYS**

We offer three diverse calendar options. Our [donsphoto.com](http://donsphoto.com) online ordering system has a terrific variety of template options for Calendars. The first option is a 12 month press printed 11x8.5, center stapled calendar which is great for an every-day calendar. The second 11x8.5 calendar is center coil bound, on photographic paper and the images are sharper and more vibrant than the press calendar. The third option is a 12x18, 12 month, single sided calendar again on photographic paper. The press calendar is on paper stock and is the easiest to write on if you want to make notes.

ITEM	DESCRIPTION	PRICE
12 Month press printed calendar	12 months on 8.5"x11" press printed, stapled in the center.	\$27.95
12 Month Photographic paper 11x8.5	12 months on 8.5"x11" photographic paper, coil bound center.	\$44.95
12 Month Photographic paper 12x18	12 months on 12x18 Kodak Endura paper, coil bound top.	\$44.95

\* there is a \$10.00 per order charge on calendar orders from prints, negative or slides.

## Photo Books

**7 BUSINESS DAYS**

Utilizing the latest software, Don's Photo is proud to offer Photo Books. An amazing variety of templates and background options are available. Check out the software at [www.donsphoto.com](http://www.donsphoto.com).

ITEM	DESCRIPTION	PRICE	EXTRA PAGES
10x8 Hardcover	Black w/ window cover (20 pages standard, 78 page max.)	44.95	\$1.50

## Photographic Paper Greeting Cards

**4 BUSINESS DAYS**

We offer hundreds of different greeting card templates from single image to multi image flat in a variety of sizes. Visit [www.donsphoto.com](http://www.donsphoto.com) and select online printing - Super DOPS and create. Greeting cards can also be ordered through our in-store Kiosks. All card orders come with envelopes.

CARD TYPE	SIZE	12 (MINIMUM)	25	50	100	200+
Greeting Cards	4x8	\$12.96	\$22.00	\$34.00	\$58.00	\$0.52 each

5x7 Greeting Cards	5x7	\$14.28	\$24.00	\$37.50	\$64.00	\$0.57 each

## Business Cards

5 BUSINESS DAYS

Customize your business card with a photograph. Bring us your favourite image on film or digital file along with a copy of your logo and let us do the rest. We combine your images and info to create your personal photo business card or you can avoid the set up fee by providing a digital file sized 2"x3.5". Please note that you should avoid having text within 0.125" of the edge of the card and avoid using outside borders as they may appear uneven in the final print.

ITEM	100	250	500	1000
Business Cards - Matte	\$27.00	\$46.00	\$75.00	\$100.00
Business Cards - Metallic	\$38.00	\$66.00	\$105.00	\$140.00

One Time Set-Up Fee - \$19.99 (Includes PSD and TIFF file on CD)

## Bulk Print Scanning

4 BUSINESS DAYS

The most inexpensive method of scanning prints. These scans are suitable for viewing images on a computer and making smaller print sizes. Scans from photographic prints ranging in size from wallets to 8x10, in colour or B&W results in JPEG files at 300 dpi resolution, with low compression. All images are returned on a CD. Prints cannot be smaller than 2.5x3.5 inches, and cannot be mounted or on paper thicker than normal photographic paper. Images should also be free of dust, free of tears, tape, staples, and any other defect that can interfere with the scan.

**Note:** Prints are grouped by size prior to scanning making it very difficult to keep them in a specific order. For that reason we do not offer to keep prints in order with this service.

# OF SCANS	1 SIDED	2 SIDED
50-199 (minimum order of 50 or \$19.50)	\$0.39	\$0.55
200-499	\$0.29	\$0.39
Shoebox Scan*	\$129.99	\$159.99

\*Bring in a standard shoebox filled with pictures and we'll scan every print in the box for one low price.

Please NOTE! Prints must be in good condition for the Shoebox Scan rate. Clean prints, no folds or creases allowed.

**NEW** - The CD is included in the price or you can have images returned on 8 GB USB 2.0 for an additional \$8.00

New -Receive images on a 8GB USB (USB 2.0) ADD \$8.00

## Consumer Film Scans

1-3 BUSINESS DAYS

The most economical way to transfer negatives or slides to digital format. This service is available from 35mm, APS and 120 film. We can scan your roll at the time of developing, or from your existing negatives. Please NOTE! All other sizes of film must be Pro Scanned (see Pro Scan section for pricing). All colour negative film and slide films are scanned with Digital Ice™ which is a automatic dust removal system that removes most (not all) dust and some scratches. Due to technical limitations, Black and White film cannot have Digital Ice™ applied.

	135	120-6x4.5	120-6x6	120-6x7

220 High Res	\$15.00	\$2.50	\$2.25	\$2.00	\$1.75	\$1.50

\*This is a per frame charge from individual slides or negative strips of pre-processed film.

These scans crop 2mm around the edge of the frame, very full images with text should be Pro Scanned.

NEW - The cost of CD is included in the scanning price or you can have images returned on 8 GB USB 2.0 for an additional \$8.00

## Pro Scans

3 BUSINESS DAYS

Pro Scans are for when you need to step it up a little. We scan Colour or B&W negatives, slides and prints. These RGB, 8 Bit, Adobe 1998 scans are processed with Digital Ice (colour only -Digital Ice does not work with B&W film ) and dust busted in Photoshop. Each file is carefully optimized and saved as a tiff onto a CD.

## Old Photo Restoration and Manipulation

**7 BUSINESS DAYS**

Using the latest digital imaging equipment we restore tears, blemishes, cracks, faded colour and density. We can remove, add people, or other elements to the photograph, hand-colour black and white images as well as remove distracting objects in the background by replacing the original background with a studio backdrop image. (See in store for samples)

All work is saved to a digital file and returned to you on a CD with no harm to the original. We have created 5 categories of retouching. Hand colouring and the removal of background objects are usually classified as a heavy restoration, however it may be as low as medium depending on how much work is required.

	LIGHT	MEDIUM	MED-HEAVY	HEAVY	GROUP HEAVY
<b>Retouching Level</b>	<b>\$30.00</b>	<b>\$48.00</b>	<b>\$65.00</b>	<b>\$79.00</b>	<b>\$99.00</b>

**NEW** - The cost of CD is included in the scanning price or you can have images returned on 8 GB USB 2.0 for an additional \$8.00

**New -Receive images on a 8GB USB (USB 2.0) ADD \$8.00**

## Professional Digital Copywork/Retouching

**7 BUSINESS DAYS**

Bring your original and we'll capture it digitally, make any colour management decisions required and provide you with a proof for your approval. The image can then be output to your specifications. This service is designed for originals such as paintings where colour fidelity in each tone is paramount as our experts painstakingly adjust each channel for optimum matching. Additionally, and specialized digital work can be quoted on a per hour basis. It is best to visit us in person to discuss your needs.

Service	Price
Originals to 16x20	\$50.00
Originals larger than 16x20	\$80.00
Digital retouching work	Quoted on a per job basis \$80.00/hr

**NEW** - The cost of CD is included in the scanning price or you can have images returned on 8 GB USB 2.0 for an additional \$8.00

## Video Transfers: Tape to DVD or Hard Drive (MP4)

**4 WEEKS**

For transfers to MP4 a blank hard drive must be supplied by the customer . Approximately 1 GB of storage is needed for each hour of video.

DVDs or digital files to hard disc can be made from VHS, s-VHS, VHS-c, 8mm video, hi-8 video, digital 8 video, mini-dv, mini DVD, SD cards and Betamax. (PAL Mini DV transfers are not available). Each tape transferred to DVD is a single chapter and has a separate chapter title that appears in the menu. Custom chapter titling is generally not offered, but can be provided. Chapter titles are limited to 18 characters. An additional fee may apply.

It is possible to put more than two hours onto a DVD, but the quality will suffer and the price will not be any less than utilizing more than one DVD to maximize quality.

DESCRIPTION OF SERVICE	PRICE DVD	PRICE MP4
Single tape or DVD to archival DVD - Up to 2 hours	\$36.00	\$36.00
Combined tapes and/or DVDs to archival DVD - Up to 2 hours*	\$50.00	
Extra DVD copy (not applicable to transfers to Hard Drive)**	\$15.00	

\*Video can be combined to a single DVD for up to 4 separate original tapes or DVDs only.

\*\*The extra copy price is only provided at the time of the initial order.

For future copies, the DVD made during the previous work must be supplied in order to make a copy.

Customers must sign off and take responsibility for any copyright material.

## Video Tape Repair

**4 WEEKS**

Most physically damaged video cassettes can be repaired or spliced. When repairing the actual tape, damaged portions must be removed.

If a tape requires a physical splice, it is highly recommended that it be copied to DVD or digital file (see above video transfer prices) and not played in a VCR. Splices made to video tapes are likely to create a head clog, meaning the VCR must be opened and cleaned.

DESCRIPTION OF SERVICE	PRICE
Splice video tape	20.00
Replace cassette shell (add to above price is necessary)	20.00

## Video Transfers: Home Movies

**4 WEEKS**

All motion film is transferred on new frame-by-frame transfer units. These units basically take a 1920x1080 hi res scan of every individual frame and those frames are reassembled into a playable video file. These individual jpeg images of each frame are what are known as the Master Image Sequence (MIS) . A MIS is perfect for the customer who wants a backup that will allow them high quality, flexible format that can be easily converted to other formats in the future. Each reel of film will have it's own folder with each and every frame of that reel accessible as a jpeg file.

Suggested transfer it to HD - MP4 or HD - .MOV. You can request having transferred to DVD (SD) but that will be of lower quality. Transfers to MP4 or .MOV require a flash drive or external hard drive. A quick rule of thumb is that you will need about 4 GB of storage for every 50' reel of film that you are having transferred. This drive must accompany the order or there may be delays in completion of the order while a drive is sourced.

Each new reel of film being transferred to DVD will have a new chapter title on the DVD menu. Chapter titles can be provided by the customer (up to 2 rows of 20 characters for each reel of film). If a chapter title is not provided we will title the chapter with the number in which they were transferred. Efforts are made to try and place film in chronological order is possible.

Minor film repair is done at no charge. If extensive repairs must be done, you will be notified of any extra charges before we proceed.

Prices are on the amount of film that is on a reel. If the reel is full, follow the guide below for pricing, in reference to the diameter of the reel. If reels are not full, the price is charged by the nearest higher increment (i.e. a 400 foot reel with only 250 feet of film on it will be charged for 300 feet). Over-stacked reels will be charged accordingly for a larger sized reel.

Additional copies must be ordered at the time of transfer. Extra copies at a later time are \$25.00 for the first copy, and \$15.00 for additional copies. Extra copies of film transfers can be made without the original DVD provided it is done within 12 months of the original transfer.

DESCRIPTION OF SERVICE	FILE or DVD
50 foot reel or less	\$24.00
100 foot reel	\$45.00
200 foot reel	\$90.00
300 foot reel	\$130.00
400 foot reel	\$170.00
over 400 feet	\$0.40/foot

Minimum Charge of \$35.00 per order.

Chapter Titles: \$3.00 per title (plus reorganization price if applicable).  
Extra Copy DVD - \$15.00

## (Very) Old Film Developing

10-12 WEEKS

With exception to 35mm long roll motion picture film, all film can be developed regardless of its format and age.

All still film, once developed is scanned, digitally enhanced, and burned to CD.

After developing, it is recommended that motion picture film be transferred to DVD or Digital File (AVI or MOV). Much of the motion picture film is developed into a B&W negative in order to salvage something from it. Some form of transfer in these cases is necessary so that it is viewable by the customer.

Though most types of film can be developed, the quality and success rates depend on many factors. Some films tend to come out very well, some okay, and some very poor. It must be noted that these films are often decades beyond their expiry dates. See lab for more information with specific details as to the film brand, format, and exact type. Kodachrome film can only be processed to Black and White.

The retrieval of recognizable images from still film is guaranteed or there is no charge. "Recognizable" does not mean "of good quality", it only means that there is a physical image within the frame of the negative.

Depending on when the film is received, processing may take up to 6-8 weeks.

DESCRIPTION OF SERVICE	PRICE
All still film developing (except Disc film)	\$80.00
Motion film	\$59.00
Disc film	\$50.00
Prints from Disc film (already developed)*	\$27.60

\*Disc film scans are 2400dpi. Though fairly high resolution, the negatives are so very small, and digital artifacting will show up on prints over 5x7
